

ECO FLOW DUAL FILTER FAN - ECF 60-115

Model	Weight (lbs)	Amps Current Draw at 115 volts DC	Fan size	Dimensions-Inches (HxWxD)
EFC-60-115	2.7 lbs	0.23	1x6"	10.03 x 10.03 x 4.20

PRODUCT SPECIFICATIONS

1. Fan specifications: ball Bearing fan, Voltage 115V, Amps 0.36A, Power ~32W, Noise 56dB, Max static pressure 0.86 H2O inch
2. CFM through the filter 91 cfm/155m3/h
3. Frame material: ABS Fireproof material of UL94 V-0, UL light resistance according to UL746C(f1)
4. Standard Color
5. Operating temperature/storage temperature: -10 to 70 C°/-40 to 70 C°
6. Filter material: Synthetic fiber with progressive construction, resistant to 100C°, moisture resistant to 100% RH and reusable
7. Connection Type: Terminal
8. Rated Protection IP54
9. Ask for accessories. Available in different Voltages: 24DC, 48 DC, 115 AC and 230 AC.
10. For design, quote, and sizing assistance: call (512) 595-5700

*Subject to change without notice.
