ABOUT US

For more than 50 years, Noren Thermal Solutions has delivered innovative thermal management solutions based on heat pipe technology, helping prevent electronic components from overheating. All of our products are designed and assembled in the USA, using the expertise and knowledge of our engineering and design staff.

You can rely on the high quality that represents us and our ability to solve heat transfer challenges with cutting-edge designs and technology. Our thermal solution-oriented philosophy, coupled with customer service and satisfaction, has earned us the freedom to think outside the box.

We are currently doing business worldwide and growing as an eco-friendly industry. We pride ourselves on delivering exceptional customer service with each thermal solution.

Mission Statement: Noren Thermal Solution is committed to engineering and manufacturing quality solutions for a variety of thermal challenges in an atmosphere of excellence.

Quality Policy Statement: Encompassing an attitude of continual improvement, Noren Products Incorporated is committed to teaming with our employees in an ethical business environment to provide innovative product solutions for our customers.

ECO-COOL is part of Noren Thermal Solutions' new line of high-quality, low-cost heat exchangers using heat sink technology. Hot air within the enclosure is circulated through the internal fins by fans. The increase in temperature causes the heat to transfer from the internal to the external fins. External fans circulate cooler ambient air around the external fins to dissipate the heat.

ECO-COOL

DROP-IN UNITS

Noren Eco-Cool Drop-In heat exchangers are designed to attach to the side of the door of the electrical enclosures. The unit occupies space both inside and outside of the enclosure.

FLUSH-MOUNT UNITS

Noren Flush-Mount heat exchangers are designed to attach to the side or door of electrical enclosures. Unlike the Drop-In unit, the Flush Mount units do not protrude into the enclosure.

■ HEAT EXCANGER ECO COOL ECX-200

Model	Weight (lbs)	Rating @ 20°C ΔT (BTU/hr)	Efficiency (Watts/°C)	Rating AT 20°C ΔT Watts cooling	Amps current Draw at 115 volts AC	Fan size	Dimensions-Inches (HxWxD)

ECO-COOL - DROP IN ECX-200 PRODUCT SPECIFICATIONS

1. UL Listed for Type 12 and 4 environments
2. ECX-200 Rated cooling: 980 Watts at 20°C ΔT (49 W/°C) mounted to an uninsulated 72" X 36" X 24" cabinet
3. Housing is aluminum (Standard color)
4. Equipped with a mounting gasket to maintain an airtight seal
5. Internal 6-ft power cord with a 3-prong plug is standard for AC-powered units
6. Available with VAC (115 & 230) (Frequency 50/60) VDC (24 & 48) fans. DC-powered units include a junction box; consult the website.
7. Unit may be mounted vertically (as shown)
8. Drop-In and Flush mount versions available
9. For design, quote, and sizing assistance: call **(512) 595-5700**

DIMENSIONS AND MOUNTING (INCHES)

Our Eco-Flow Dual Filter Fan system achieves high efficiency; they are created in all sizes, assuring a solution for the smallest and largest electrical enclosures. Every Eco-Flow system is easy to install, offers optimal energy efficiency, and requires minimal or no maintenance. This application continuously pushes heated air out of the enclosure while pulling cooler air in and can be used in a variety of different configurations to accommodate most enclosures.

ECO-FLOW

A SIMPLE INSTALLATION

Noren's Eco-Flow Dual Filter Fan units are easy enough to install on your own, with no special tools required. However, we strongly recommend following the installation instructions for your specific Eco-Flow unit.

■ ECO FLOW DUAL FILTER FAN - ECF 40-24

PRODUCT SPECIFICATIONS

1. Fan specifications: ball Bearing fan, Voltage 24V, Amps 0.60A, Power ~15W, Noise 49dB, Max static pressure 0.49 H₂O inch
2. CFM through the filter 68 cfm/116m³/h
3. Frame material: ABS Fireproof material of UL94 V-0, UL light resistance according to UL746C(f1)
4. Standard color
5. Operating temperature/storage temperature: -10 to 70 C°/-40 to 70 C°
6. Filter material: Synthetic fiber with progressive construction, resistant to 100C°, moisture resistant to 100% RH, and reusable
7. Connection Type: Terminal
8. Rated Protection IP54
9. Ask for accessories. Available in different Voltages: 24DC, 48 DC, 115 AC, and 230 AC
